PhyloTrace

PILOT OFFER

Try PhyloTrace on your own data — six-month pilot

A structured pilot with onboarding, support and regular reviews, at a reduced fee in return for your feedback. The software stays free and open source; the pilot covers Liora's services.

6 months
pilot operation after go-live

€99 / month[1]
€594 in total (list price €149)

2 h / month
direct support included

How the pilot runs

1 Prepare
Week 1: kick-off, your pilot environment and the use cases you want to test.

2 Go live
Week 2: installation, basic test, go-live.

3 Pilot operation
Monthly 30-minute reviews, mid-pilot review in month 3.

4 Close
Month 6: closing workshop and a joint decision within 14 days.

GUIDED BY LIORA

- **Kick-off and readiness meeting** to set up the pilot around your own questions and data
- **Monthly reviews and a mid-pilot review**, so open points are caught early and nothing stalls
- **A backlog of your bugs and feature requests**, kept by the developers and reviewed with you
- **Closing workshop** with a clear go, conditional go or no-go

SUBSCRIPTION BENEFITS, FROM DAY ONE

- **Direct line to the developers:** support up to 2 hours per month, target first response 1–5 business days by priority
- **Priority access to updates** and the latest features, with release notes for every update
- **User manual** with installation and operation guidance for your version
- **Software bill of materials** for your IT and information security review

More when you need it: custom feature requests, training and development at **€150 per hour**[1].

Your data stays with you

Designed with data protection in mind: genomes and metadata stay on your hardware. Liora hosts no customer data, has no permanent access and collects no telemetry. A written pilot agreement sets out services, support, data protection and security.

After the pilot

At least four weeks before the end, Liora sends an offer for a regular contract. The pilot fee is credited in full against the first year of the annual subscription (**€1,499 per year**[1]), so the first year costs **€905**. No obligation.
